

Integrated Management System

Quality Policy

Masterblasters is an industry leader in abrasive blasting and protective coating for asset maintenance in southern Queensland and beyond. Masterblasters is committed to providing professional workmanship, consistent finishes and reliable delivery times to all its clients.

For Masterblasters to enhance its position in the market, the management team focuses on continuous improvement in all aspects of the business, customer service and workshop processes. Staff participate in regular consultation and training to ensure systems and processes are streamlined to continually deliver quality outcomes to both internal and external customers.

Health & Safety Policy

Masterblasters provides a safe and healthy working environment for all employees and other persons, so far as reasonably practicable. This is achieved by management and employees working together, following a program of health and safety activities and procedures which are monitored, reviewed and audited to achieve best practice.

Masterblasters undertakes to regularly review this policy to take account of changes in legislation, activities, services and products and to effectively implement these policies as they occur. Masterblasters is committed to abiding by the Qld WHS Act (2011) and WHS Regulations (2001).

Environmental Policy:

Masterblasters undertakes its operations in an environmentally responsible manner to achieve the moral and community expectations and complies with relevant legislation and regulations. Masterblasters accepts that it is the duty of all people working and associated with us in the workplace to ensure that environmental risk is minimised. All personnel and visitors are made aware of their environmental responsibility.

All operations are planned and executed to minimise any impact on the environment including prevention of pollution to the atmosphere, land and water. Processes and actions performed are regularly monitored and edited to improve their effectiveness.
